

## Easy-Inject

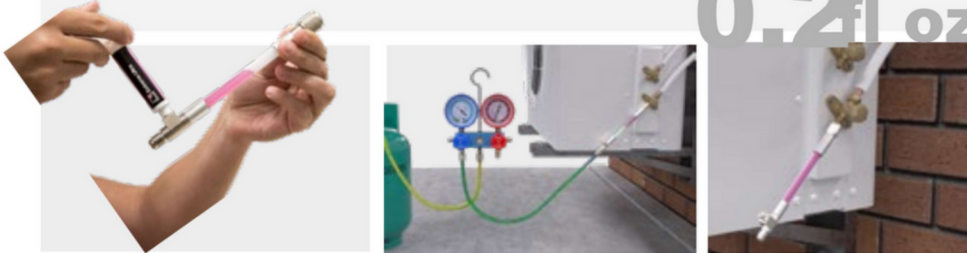

Tool for injecting Additives into the AC/R System

US PATENT  
US 11002470

**EN** Allows additives to be added to AC/R systems using refrigerant gas. Pump down not required. Eco friendly: re-usable. Safe for technicians and systems: check valve included.

**ES** Permite insertar los aditivos en los sistemas de A/R través de gas refrigerante. No necesita pump down. Eco friendly: reutilizable. Seguro para el técnico y el sistema: válvula de seguridad incluida.

## Easy-Hose

Tool for inserting Additives through AC/R System Pressure

**EN** Connected directly to the high side port and Easy Inject, Easy Hose enables additives to be injected into AC/R systems without manifolds, but rather using the pressure of the system itself.

**ES** Conectado directamente a la válvula de alta presión y a Easy Inject, Easy Hose permite insertar los aditivos en los sistemas de A/R sin utilizar el manómetro y explotando la presión del sistema.
