Control remoto universal
 Modelo:KT528
 Para:1028 códigos

Introduction:

In the era of smart technologies and convenience, the KT-528 Universal AC Remote Control emerges as a powerful tool for users seeking a seamless and efficient way to manage their air conditioning systems. This universal remote is designed to be compatible with a wide range of air conditioner models, offering users a unified solution to control their indoor climate. In this article, we will delve into the features and benefits that make the KT-528 a standout choice in the realm of universal AC remotes.

- Universal Compatibility:** The KT-528 sets itself apart by offering compatibility with a diverse array of air conditioner brands and models. Whether you have units from popular brands like Panasonic, Toshiba, Haier, or others, this universal remote provides a one-stop solution, eliminating the need for multiple remotes and simplifying the user experience.
- User-Friendly Interface:** The KT-528 Universal AC Remote Control boasts an intuitive and user-friendly interface. The well-organized buttons and clear labeling make it easy for users to navigate through different functions, adjust settings, and control various aspects of their air conditioning units effortlessly.
- Comprehensive Functionality:** This universal remote goes beyond basic functions, offering users a comprehensive range of controls. From adjusting temperature settings and fan speeds to selecting different modes (cooling, heating, dehumidification, and fan-only), the KT-528 ensures users have complete command over their indoor climate.
- Programmable Timer:** The inclusion of a programmable timer feature allows users to set specific schedules for their air conditioning units. This not only adds to the convenience of operation but also

contributes to energy efficiency by enabling users to program the system to operate only when needed.

- Backlit Display and Night Mode:** Operating the KT-528 in low-light conditions is made effortless with its backlit display. The night mode feature enhances usability during nighttime use, allowing users to make adjustments without disturbing their sleep environment.
- Ergonomic Design:** The KT-528 is designed with user comfort in mind. Its ergonomic layout ensures that the remote fits comfortably in the hand, making it a practical and user-friendly device for daily use.
- Energy Efficiency and Cost Savings:** By providing precise control over air conditioning units, the KT-528 contributes to energy efficiency. Users can optimize temperature settings, utilize programmable timers, and take advantage of energy-saving features, ultimately leading to reduced energy consumption and lower utility bills.

Specifications:

Connectivity Technology	Infrared
Batteries	2 AAA Batteries
Package weight	80g
Color	White
Material	PVC
Control type	Digital Screen
Compatible device	Air Conditioner
Features	LCD Background, Light Display, Room Temperature display, Clock, Timer On/Off Code Memory.
