

Condensadores BlueStar sin forzador Lista: 56.05.30

We have FNF, FNV and FNH 3 sub series of air cooled condensers products.
FNF is side air blow type, and FNV and FNH are the top air blow type.

This series products features:

- Cabinet is steel plate with plastic spray, corrosion proof and pleasant looking.
- Mechanically expanded pipes with AL fins good heat transfer performance.
- 2.8MPa gas pressure tested pollution clear is done before delivery.
- Suitable for refrigerants of R22, R134a, R404A, R407C etc.
- With external fans, good heat transfer effect, the FNV is suitable for big capacity units.

- Adopt high efficiency heat exchange coil with aluminum fins, clean and dry inside copper tube.
- Aluminum fin punching is an extension flapof "L" row, so heat exchange efficiency is very high after expansion.
- Overall shell make spraying treatment and corrosion resistance. Support with multi-flanging design have perfect vibration resistance.
- Axial fan motor can be chose by EBM or Chinese famous brand: High efficiency, low noise, large air volume.

FNF
FNF Series Technical Specification

| 型号 Model | 名义排热量 Refrigerating capacity W | 换热面积 Heat exchange area m ² | 排管 Wreath Row 规格 | 电机 Fan Motor | | | | 进管 Inlet mm | 出管 Outlet mm | 外型尺寸 Overall Dimension mm |
