

976661 Contr"BlueStar"MTC6040-Temp/Vent/Humed2S

Parameter

Working conditions

Operating Voltage: 220-240 VAC, 50~60Hz;

Compressor relay contact capacity: 16A;

Fan relay contact capacity: 7A;

Working temperature: -15°C~ -60°C

Features, safety requirements:

Temperature measuring range: -40.0~50.0;

The minimum display resolution :0.1;

Accuracy: ±1.0°C;

Humidity display rang: 0%RH~100RH%;

Display resolution: 1;

Accuracy: ±3%RH(25°C)

Other: Meet the Gb4706.1-2005 safety standards.

Features

Applied to the temperature and humidity control applications, automatical control of cooling, humidity, fans, lighting and other loads.

Main Function

Temperature Humidity Fans Lighting

Elitech®
